

# Imaging analytics for better decisions, sooner.

*AeroRemote*  
INSIGHTS

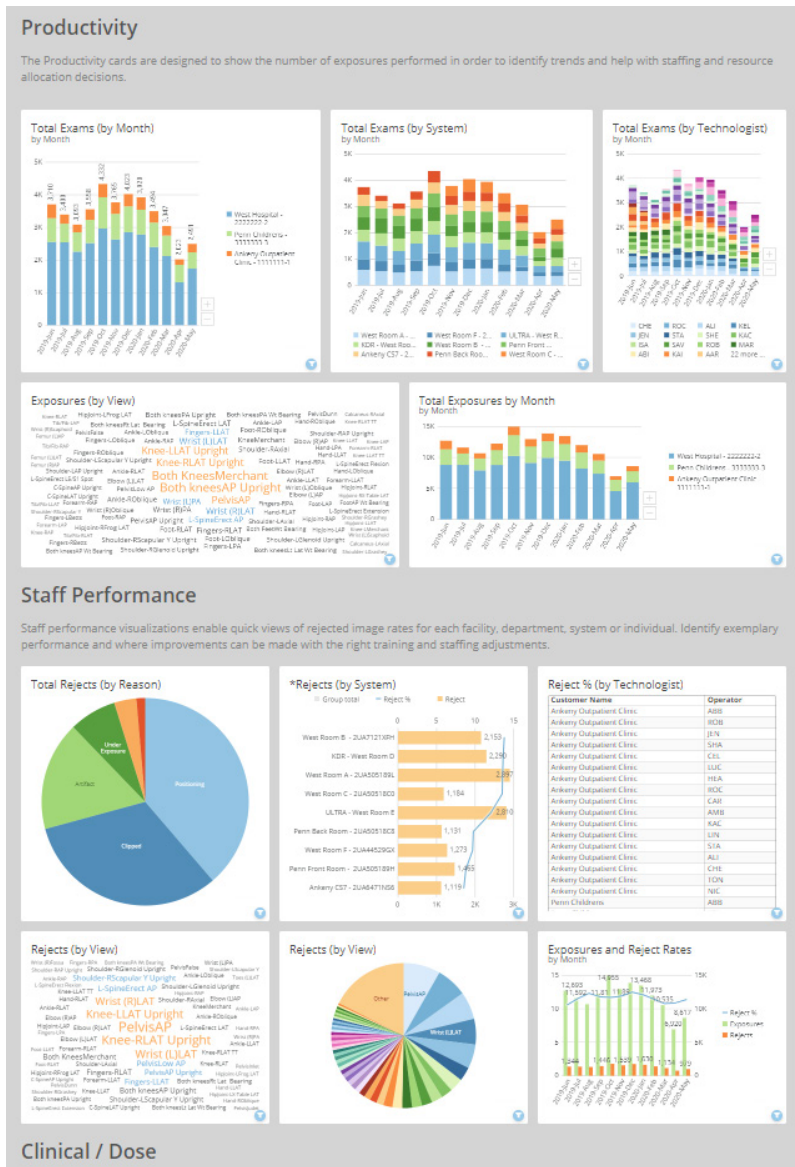

KONICA MINOLTA

# Maximize system utilization. Minimize service interruptions. Optimize personnel performance.

AeroRemote® Insights is a unique monitoring and analytics tool that makes it far simpler and more efficient for you to manage digital radiography assets, run a more productive imaging department and deliver a better experience for patients.

A cloud-based subscription service available with Konica Minolta Digital Radiography Systems, AeroRemote Insights gives you up-to-date metrics on procedure volumes, staff performance, and system health, facilitating quick, confident decision making on critical aspects of your department's performance.

## Track Departmental Productivity

Gain deeper understanding of how, when and by whom systems are being used—at a glance.

## Evaluate User Performance

Assess user accuracy, productivity, and exam dose patterns to help evaluate performance and identify training opportunities.

## Maintain Optimal Performance

Stay on top of system performance, maintenance requirements and service contracts, with a click.

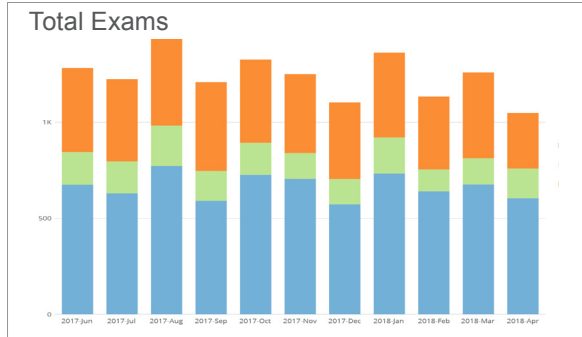

## Respond to Critical Events

Get immediate notification about critical events, such as panel drops, so you can respond quickly and minimize service interruptions.

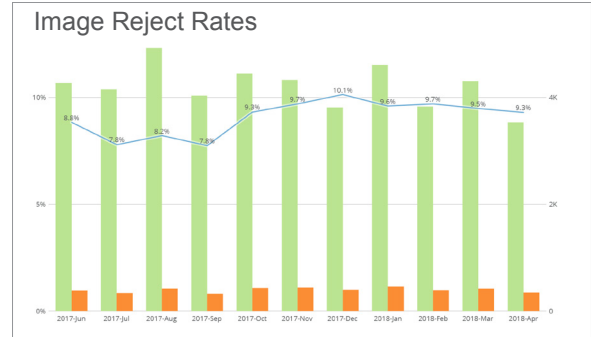

# Interactive Dashboard Brings Analytics to Life

AeroRemote® Insights collects valuable data daily from your DR systems<sup>1</sup> — from exam volumes to rejected image reasons and exam exposure levels. This data is automatically integrated into intuitive presentations that help you streamline department management and decision-making.

## Productivity

Learn at a glance how each hospital, department, system or user is performing—by time or exam type. Gain insight into asset use and staff training opportunities.

## Staff Performance

Track image rejects to identify causes of repeated exposures. Identify need for training or system maintenance.

Operator Username	Exposure	Average S Value	Average EI Value	Average DI Value
CRR	7,177	473	298.33	-1.17
DC	678	496	287.61	-1.42
DCJ	6,489	485	253.16	-1.63
DMM	1,176	485	269.42	-1.47
KAC	618	514	328.31	-1.49
KLC	5,615	502	324.48	-3.36
SMT	2,069	237	657.57	0.48
TJW	10,951	489	232.03	-1.75
VLM	9,150	456	296.50	-3.00
VRW	3,418	413	357.73	-0.71

## Dose Metrics

Monitor exposure indicators by user, system or exam view. Identify where techniques can be adjusted to optimize dose.

PAST DUE CALIBRATIONS				
Customer Name and ID	Panel Serial	Last Calibration Date	Next Calibration Date	Calibration Interval
EXCEL MEDICAL GRP RIVERSIDE RD - 2066022-6	AI6C4-XXXX	2018-03-26	2018-06-24	90
EXCEL MEDICAL GRP RIVERSIDE RD - 2066022-6	AI6C4-XXXX	2018-03-26	2018-06-24	90
NORDIC IMAGING SPECIALISTS - 2013423-1	AI6C5-XXXX	2018-01-31	2019-01-31	365
NORDIC IMAGING SPECIALISTS - 2013423	AI6C5-XXXX	2018-04-26	2019-04-26	365

## System Health

Gain instant access to service contract status, system events and AeroDR panel calibration schedules. Minimize downtime by addressing issues before they become problems.

## Aggregate Comparisons

Compare your facility's performance to the AeroRemote Insights community average, including reject rates.

## Panel Handling Tracking

Assess AeroDR panel handling by time of day, location and user. Identify where to take action to reduce the financial risk of accidental damage and downtime.

# Unlock value department-wide.

Manage your DR business from anywhere - AeroRemote Insights analytics dashboard and monitoring service is available for most AeroDR models and is compatible with many iOS and Android mobile devices.

## Easy to use and feature-rich:

- Easily export charts and data to spreadsheets or PowerPoint
- Email presentations to external colleagues
- Drill down to additional data or views with a simple click
- Create your own filters for viewing data by a specific criteria
- No patient specific data is ever transmitted
- Data updates daily

## View data by:\*

- Facility name
- Room/location
- Time
- Username
- Anatomical view

\* filtering may vary depending on the metric or chart being viewed

## Available metrics:

- Exam and exposure counts
- Rejected image statistics (counts, rates, reasons)
- Exposure indices
- System service contract status
- Operating system warnings
- Impact (drop) counts

## System requirements:

- CS-7 Version 1.35 or later; Ultra software version 4.32 or later
- Konica Minolta R3 connection agent for each CS-7 or Ultra station
- Internet access for each CS-7 or Ultra station
- Use unique logins for maximum utility of the usage screens

**BLUE MOON**  
LIFECYCLE PRODUCTS

AeroRemote Insights is included in Konica Minolta's comprehensive Blue Moon Select service agreements or is available as a stand-alone annual subscription.

Watch the AeroRemote Insights animated video to learn more.
