What are Modifiers?

Modifiers are codes that can be appended to a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) code to provide additional information to payers and ensure the correct processing of claims.

Modifiers can be two-digit numbers, two-character modifiers, or alpha-numeric indicators. Professional and facility claims can include up to four modifiers per CPT/HCPCS code and placement of the modifiers is critical for correct reimbursement.

Configure a modifier

To add a modifier, enter the following fields and select **SAVE**.

The screenshot displays the 'MODIFIERS' configuration page. At the top, there is a navigation bar with tabs: GENERAL, SETTINGS, APP SETTINGS, REASON CODES, MRN INFORMATION, ACCESSION INFORMATION, AE FILTER, RCOPIA CONFIG., HL7, PASSWORD MGT., and MODIFIERS. Below the navigation bar is a table of existing modifiers:

Code	Description
RT	RIGHT
LT	LEFT
50	BILATERAL
59	DISTINCT PROCEDURE/SERVICE
52	REDUCED SERVICES
26	PROFESSIONAL COMPONENT
TC	TECHNICAL COMPONENT

Below the table is a form to add a new modifier. The fields are:

- Code ***: A text input field.
- Implicit**: A checkbox.
- Description ***: A text input field.
- Fee Level ***: A dropdown menu with 'Select' as the current value.
- Fee Override**: A text input field, a dropdown menu with 'Select' as the current value, and another text input field.
- M1-M4**: Four checkboxes labeled M1, M2, M3, and M4.
- Display on Schedule Book and Print Order**: A checkbox.

At the bottom of the form are two buttons: **SAVE** and **CANCEL**.

Code: 2-digit code assigned to the modifier per CMS guidelines

Description: The description of the modifier

Fee Level: Global, Technical, or Professional

Fee Override: If the modifier impacts the fee on the claim, select the type of value in the adjacent box

M1-M4: Assign the display order for the modifier

After saving, the modifier appears in the Modifiers list from oldest to newest.
